

Conflict Incident Monthly Tracker

Delta State: February-March 2018

Background

This monthly tracker is designed to update Peace Agents on patterns and trends in conflict risk and violence, as identified by the Integrated Peace and Development Unit (IPDU) early warning system, and to seek feedback and input for response to mitigate areas of conflict.

Patterns and Trends Dec 2017-Feb 2018

According to Peace Map data (see Figure 1), conflict issues during the period included communal tensions, cult violence, and criminality including militancy and kidnapping for ransom.

Communal Conflict: In February, two residents were reportedly killed during a joint security operation in response to a longstanding dispute over a leadership tussle in Ogborodo community, Warri South West LGA. Separately, two persons including a male primary school pupil, were reported killed during a clash between Aladja community in Udu LGA and Ogbe-Ijoh community in Warri South West LGA. In Ethiope East LGA, herdsmen reportedly killed a man and injured his wife on the farm.

Communal conflict was a driver of Violence Affecting Women and Girls (VAWG) in the state during this period. In January, for example, a woman was raped by herdsmen in Aniocha North LGA

Violence Affecting Women and Girls (VAWG): In addition to the impact of communal conflict and criminality on women and girls listed above, other forms of violence were also reported during this
